

Counseling

We have developed a course that is geared to help the counsellor to come into a place of victory in his/her own life and to minister the same victory to others.

We do not teach Psychology or Christian Psychology.

We present counselling the biblical way. There is no room for own opinions.

We have to counsel from a pure heart to see the potential our Lord has invested in another created being. Every human being is God's workmanship, created with a dream and a future. What and who we become is our choice.

This counselling course can be done separately as a certificate course or as part of the curriculum. Please indicate on your application form.

We are available for counselling. For appointments contact us by e-mail or phone the contact numbers.

Testimonial

Dear Johann and Christelle,

I would like to take this opportunity to thank you for your dedication to us. You have made my studies a very enjoyable experience.

The professional manner in which the classes were presented and the openness with which you discussed each lesson has further enhanced the experience and facilitated a better understanding of the subject being taught.

The quantity and quality of the material was very high. The lessons were easy to follow and have provided me with a solid foundation on which to build my future.

God has truly blessed you with this ministry and I pray that many would benefit as I did from your Bible College. I am looking forward to continue my studies this year.

With the skills learned, I am now able to communicate better with people and I do not fear that they would surprised me with some problem or question I can not handle. This new found confidence has inspired me to become more involved with others and use that ability to reach out and help them.

Springs City Mission has also benefitted from this as I help them by preaching The Good News to the homeless, jobless and substance abusers that visit them. I am more able to assist them with thier problems and give Godly inspired scriptural guidance where needed. I have learned that just listening is ninety percent of the work.

Personally I have also seen large changes in my relationship with God. As a Christian, I have become more sensitive to the Holy Spirit and have seen large improvements in my understanding of God's Word. Through the knowledge gained I have become more mature in my relationship toward God and others and have also seen a big change in my acceptance of others and their views. I have found myself enjoying witnessing to others where I use to be shy.

In conclusion I would say that this past year has been a great blessing to me. Thanks you very

much for all you have done for me.

I pray that God would bless you each day and keep you safe.

Yours truly,
Billy Lange
